A photograph of two women in an office environment, both wearing black face masks. The woman in the foreground, on the left, has curly hair and is wearing a black top, a necklace, and several rings. She is looking at a laptop screen. The woman in the background is also wearing a black top and is looking at her own laptop. The scene is lit with warm, indoor lighting.

*"We're
committed to
constant &
meaningful
evolution."*

I don't have to tell you that 2020 was a tough year. Things that used to be straightforward, like school, became increasingly complex as we all navigated distance learning during a pandemic.

I'm humbled by the way Milady team members adapted to working from home with an unyielding commitment to "keep the learning going" for you, our wonderful customers.

Their suggestions inspired many of the actions we took during the pandemic:

- Providing digital teaching/learning through MindTap
- Delivering over 125,000 free MindTap codes to learners
- Ungating our Infection Control CE course, which resulted in 200,000+ hours of free education and readied student clinics and salons for safe re-opening
- Launching our first RISE Certification, which raises awareness about domestic abuse and human trafficking

Of course, COVID-19 wasn't the only crisis we faced in 2020. Our nation's racial reckoning forced all of us to stop and reflect. At Milady, we updated our Diversity and Inclusivity Guidelines, partnered with Stylez to enhance our curly and thick haired curriculum, and held multiple panel discussions so we could learn from all stakeholders.

We know this is just a start. And we're committed to constant and meaningful evolution.

As we look ahead to 2021, we're also committed to these digital innovations so that hybrid programs can flourish:

- Enhancing the user experience to keep students fully engaged
- Allowing for more integrations and easier ways to add in your own content
- Enabling you to manage regulatory compliance more effectively
- Simplifying the ordering process of all our digital products

We welcome your suggestions and comments about how we're doing. If you haven't already, be sure to connect with us on Facebook and Instagram to network and share best practices as we all navigate this new learning landscape.

Here's to our collective pursuit of knowledge and to a better world in 2021.

BARBERING

There's a reason why Milady remains the leader in barbering education. It starts by giving barbering students a strong foundation. This includes teaching the rich history of barbering and pairing classic techniques with contemporary looks. We always strive to meet students where they are by offering a variety of content for different styles of learning—and in different formats as well, like print and digital.
